

Training Course TOGAF® 9.2 Foundation – Level 1

Kód kurzu: EATOGAF1

V rámci tohto tréningu sa naučíte teoretické (na úrovni Foundation), ako aj praktické (Certified) aplikovanie architektonického rámca TOGAF 9.2, ktorý predstavuje štandard v zavádzaní a udržiavaní Enterprise Architektúry. Tréning pod vedením certifikovaných lektorov s dlhoročnými skúsenosťami v oblasti Enterprise Architektúry Vás pripraví na absolvovanie The Open Group certifikačných skúšok jednotlivých úrovní (Foundation a Certified). Školenie je určené pre začiatočníkov. Získate teoretické základy pre prácu s notáciou TOGAF®. Kurz vás pripraví na absolvovanie záverečných skúšok pre získanie certifikátu TOGAF 9 Foundation. Záverečná skúška nie je súčasťou školenia.

Training Course TOGAF® 9.1 Foundation - level 1

This TOGAF® Foundation Training teaches application of TOGAF 9 open standard framework for Enterprise Architecture, with emphasis on ADM, Foundation Architecture and Enterprise Continuum. This training prepares you for the TOGAF 9 Certified exam.

Why take a TOGAF training?

To implement Enterprise Architecture successfully, architects have to apply solid methods. TOGAF is a prominent and reliable standard for Enterprise Architecture. TOGAF offers consistent standards, methods and means of communication for EA professionals. It is a supplier, tool and technology-independent open standard framework.

Learn the basics of TOGAF 9

The Foundation training (TOGAF level 1) teaches you the basics of the TOGAF framework. With this knowledge you can get certified for TOGAF 9 level 1 by passing an independent exam at The Open Group.

Learning results after the training

After the training you'll have the following learning results:

- Overview in and knowledge of the different components of TOGAF 9, especially the Architecture Development Method, Foundation Architecture and the Enterprise Continuum
- Insight in the link between TOGAF 9, other architecture frameworks and ArchiMate
- Insight in TOGAF 9 tool support
- After extra self-study you'll be ready to take the TOGAF level 1 exam

Training content

- Introduction and parts of TOGAF
- Architecture Development Method (ADM)
- Enterprise Continuum
- Foundation Architecture
- TOGAF, ArchiMate and other architecture frameworks
- TOGAF and tool support
- Thinking like a TOGAF Enterprise Architect
- Exam questions

Who should apply?

This training course was developed for anyone who wants to learn about and/or start applying TOGAF 9 and who wants to get certified. This would be for example business-, enterprise-, and IT architects and consultants.

Our approach

You get to know ArchiMate and TOGAF through presentation of the theory, exercises and assignments. The variety in learning methods makes it easier for the subject matter to 'stick'. There is time to discuss application in your own work environment.

Training Course TOGAF® 9.2 Foundation – Level 1

Exam and certification

In this training you prepare for the TOGAF certified exam, which you can take at a Prometric Testing Center after some self-study. When you apply with us, you can order an exam voucher for this right away. After successfully completing the TOGAF level 1 and level 2 exams you will be fully 'TOGAF Certified' and you will be registered in The Open Group register for TOGAF certified architects.

BiZZdesign Academy is accredited for teaching TOGAF courses. Our trainers are certified and the course material has been approved by The Open Group.

Prerequisites

Training course Enterprise Architecture Foundation is useful, but not required.

Continuing education

TOGAF 9.1 Practitioner – level 1 ArchiMate® training courses

Literature

TOGAF 9 Foundation Study Guide

This course is conducted and delivered by BiZZdesign who holds a TOGAF® Commercial License issued by The Open Group. The Service Provider acts as a service provider to BiZZdesign and is not required to be licensed by The Open Group.
