

# Big Data Technology Fundamentals

Kód kurzu: AWSBDF

Big Data Technology Fundamentals provides baseline general knowledge of the technologies used in big data solutions. It covers the development of big data solutions using the Hadoop ecosystem, including MapReduce, HDFS, and the Pig and Hive programming frameworks. This web-based course helps you build a foundation for working with AWS services for big data solutions. This course is offered at no charge, and can be used on its own or to help you prepare for the Big Data on AWS instructor-led course.

Pobočka	Dní	Katalógová cena	ITB

Všetky ceny sú uvedené bez DPH.

## Termíny kurzu

Dátum	Dní	Cena kurzu	Typ výučby	Jazyk výučby	Lokalita
-------	-----	------------	------------	--------------	----------

Všetky ceny sú uvedené bez DPH.

### Pre koho je kurz určený

Individuals who are new to big data concepts, including Enterprise Solutions Architects, Big Data Solutions Architects, Data Scientists, and Data Analysts.

### Čo Vás naučíme

This course teaches you how to:

- Identify common tools and technologies that can be used to create big data solutions
- Understand the MapReduce programming framework, including the map, shuffle and sort, and reduce components
- Distinguish options available for creating a big data solution using the Hive programming framework

Please register for free here.

### Požadované vstupné znalosti

We recommend that attendees of this course have:

- Working knowledge of basic programming in a language such as Java or C#

### Osnova kurzu

Module 1 – Introduction to Big Data

- The Business Importance of Big Data
- The Hadoop Ecosystem
- Characteristics of Big Data
- Processing Big Data
- Tools and Techniques for Analyzing Big Data
- Implementing Big Data Solutions
- Case Study – Social Media Analytics

Module 2 – Introduction to MapReduce and Hadoop

- Hadoop Architecture
- MapReduce Framework
- MapReduce Programming
- MapReduce and HDFS/S3
- Use Case – Recommendation Engine

Module 3 – Data Analysis Using Pig Programming

- Introduction to Pig

# Big Data Technology Fundamentals

- Pig Data Types
- Representing Data in Pig
- Running Pig
- User-Defined Functions
- Pig vs Traditional RDBMSs
- Advanced Techniques in Pig

## Module 4 – Big Data Querying with Hive

- Introduction to Hive
- Representing Data in Hive
- Hive Data Types
- Probing Data with Hive Queries
- Hive and AWS
- Use Case – Ad Hoc Analysis and Product Feedback
